SPECIFICATIONS

Part Number	Description	Unit of Measure
86900	Quart	Each
86905	Gallon	Each

Only ships via Pallet/LTL. Use #25 Hypo Glue Applicator with Resin Bond. Use on Extruded Acrylic Track. For Modified Acrylic (DR) or Polycarbonate try Channel Bond Adhesive™.

FEATURES

- For use with acrylic plastic and sign trim (CAB) in channel letters
- Single-component (Methylene Chloride) based cement
- Thin and fast setting creating a strong bond
- Cost effective
- Clear in color
- Available in gallons and quarts
- Specifically designed to join acrylic plastic to acrylic plastic, acrylic plastic to sign trim (cellulose acetate butyrate), and changeable letter track to acrylic plastic

BEFORE USE:

1. Read the health and safety information on the container before using.
2. Request a Safety Data Sheet and keep on file.
3. Be sure surfaces to be bonded are clean and smooth.
4. Always try a small test on scrap material before going into production.
