

# Don't Repair...Retrofit!

Save the most money on your energy bill with Ventex!

## Snap Stick Fluorescent to LED Retrofit

*The Snap Stick serves as a fluorescent or neon alternative.*

Ventex Technology, LLC provides the simplest, most flexible LED alternative for traditional fluorescent box and cloud signs.

## Neon to LED Rapid Retrofit

*Venbrite offers the only LED system that can be wired using existing neon GTO wire and conduit.*

Neon and fluorescent signs are not efficient and sign shops are getting more opportunities using our "rapid retrofit" system. Our "series-wired" system dramatically reduces upfront maintenance, energy, installation and operating costs. You can't do this with our competitors!

AFTER

## Remote Mounting Capability

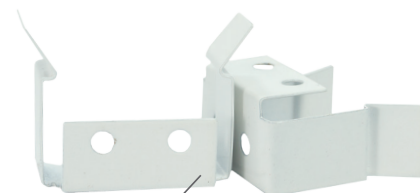

*Remote mounting up to 300' from first module with only 18 gauge wire.*

Power supplies can be mounted up to 300 feet from the first LED module. This exclusive feature allows easier access to the power supplies, eliminating costly swing stages, lifts and cranes for service.
